

Jackson County Lead Testing Areas

June 1, 2004

Legend

- Universal Testing (High Risk)
- Targeted Testing (Low Risk)
- Kansas City Zip Codes
- Kansas City Boundary

As additional, more accurate data is obtained, Universal Testing areas may change. Updated maps are published each April and are available at:

www.dhss.mo.gov/ChildhoodLead/index.htm

Please note any updates to your service area as it may change your requirements under statute. If a Zip Code crosses jurisdictions, the entire Zip Code requires mandated testing as indicated.

Universal Testing - Annual testing for children less than 6 years of age.

Targeted Testing - Medicaid children tested at 12 and 24 months.

Annual screening questionnaire, testing based upon positive responses.
